CALCULATION OF REGISTRATION FEE

<TABLE>  
<CAPTION>

Title Of Each Class Of Securities To Be Registered	Proposed Amount To Be Registered	Proposed Maximum Offering Price Per Unit	Amount Of Aggregate Offering Price	Registration Fee
<S>	<C>	<C>	<C>	<C>
Common Stock, par value per share	\$0.01 26,409,432 shares (1)	\$1.22 (2)	\$32,219,507	\$2,606.56

</TABLE>

(1) Includes 17,815,886 shares issuable upon conversion of convertible debentures, 3,563,112 shares issuable upon exercise of warrants, advisor warrants convertible into 1,756,127 shares and 3,274,307 shares representing interest.

(2) Estimated solely for the purpose of computing the registration fee required by Section 6(b) of the Securities Act and computed pursuant to Rule 457(c) under the Securities Act based upon the average (\$1.22) of the high (\$1.29) and low (\$1.15) prices of the common stock on September 16, 2003, as quoted on the Nasdaq SmallCap Market. It is not known how many shares will be purchased under this registration statement or at what price shares will be purchased.

THE REGISTRANT HEREBY AMENDS THIS REGISTRATION STATEMENT ON SUCH DATE OR DATES AS MAY BE NECESSARY TO DELAY ITS EFFECTIVE DATE UNTIL THE REGISTRANT SHALL FILE A FURTHER AMENDMENT WHICH SPECIFICALLY STATES THAT THIS REGISTRATION STATEMENT SHALL THEREAFTER BECOME EFFECTIVE IN ACCORDANCE WITH SECTION 8(a) OF THE SECURITIES ACT OF 1933 OR UNTIL THIS REGISTRATION STATEMENT SHALL BECOME EFFECTIVE ON SUCH DATE AS THE SECURITIES AND EXCHANGE COMMISSION, ACTING PURSUANT TO SAID SECTION 8(a), MAY DETERMINE.

The information in this prospectus is not complete and may be changed. The selling securityholders may not sell these securities until the registration statement filed with the Securities and Exchange Commission is effective. This prospectus is not an offer to sell these securities and the selling securityholders are not soliciting offers to buy these securities in any state where the offer or sale is not permitted.

Subject to Completion, dated September 18, 2003

PROSPECTUS

TEGAL CORPORATION

26,409,432  
Shares of Common Stock  
-----

These shares of common stock are being offered by the selling securityholders identified in this prospectus. The selling securityholders may sell their shares of common stock in a number of different ways and at varying prices. We provide more information about how the selling securityholders may sell their shares in the section entitled "Plan of Distribution" beginning on page 13.

We are not selling any shares of our common stock under this prospectus and will not receive any proceeds from the sale of these shares.

-----  
Our common stock is quoted on the Nasdaq SmallCap Market under the symbol "TGAL." On September 17, 2003, the last reported sale price for our common stock on the Nasdaq SmallCap Market was \$1.30 per share.

-----  
Investing in our common stock involves risks. See "Risk Factors" beginning on page 2.

-----  
Neither the Securities and Exchange Commission nor any state securities commission has approved or disapproved of these securities or determined if this

prospectus is truthful or complete. Any representation to the contrary is a criminal offense.

The date of this prospectus is \_\_, 2003

You should rely only on the information we have provided or incorporated by reference in this prospectus. Neither we nor the selling securityholders have authorized anyone to provide you with additional or different information. The selling securityholders are not making an offer of these securities in any jurisdiction where the offer is not permitted. You should assume that the information in this prospectus is accurate only as of the date on the front of the document and that any information we have incorporated by reference is accurate only as of the date of the document incorporated by reference. In this prospectus, unless otherwise indicated, "Tegal," "we," "us" or "our" refer to Tegal and its subsidiaries.

i

## SUMMARY

References in this prospectus to "us," "we," the "Company" or "Tegal" shall mean Tegal Corporation and our consolidated subsidiaries, unless the context indicates otherwise.

This prospectus is part of a registration statement that we filed with the Securities and Exchange Commission utilizing a "shelf" registration process. Under this shelf process, the selling securityholders may from time to time sell their shares of our common stock in one or more offerings. This prospectus provides you with a general description of the common stock being offered. You should read this prospectus, including any documents incorporated herein by reference, together with additional information described under the heading "Where You Can Find More Information."

The registration statement that contains this prospectus, including the exhibits to the registration statement, contains additional information about us and the securities offered under this prospectus. That registration statement can be read at the Securities and Exchange Commission's offices mentioned under the heading "Where You Can Find More Information."

### Tegal Corporation

We design, manufacture, market and service plasma etch and deposition systems that enable the production of integrated circuits ("ICs"), memory and related microelectronics devices used in personal computers, wireless voice and data telecommunications, contact-less transaction devices, radio frequency identification devices ("RFID's"), smart cards, data storage and micro-level actuators. Etching and deposition constitute two of the principal IC and related device production process steps and each must be performed numerous times in the production of such devices.

We were formed in December 1989 to acquire the operations of the former Tegal Corporation, a division of Motorola, Inc. ("Motorola"). Our predecessor company was founded in 1972 and acquired by Motorola in 1978. We completed our initial public offering in October 1995.

On August 30, 2002, we acquired all of the outstanding common stock of Sputtered Films, Incorporated ("SFI"), a privately held California corporation pursuant to an Agreement and Plan of Merger dated August 13, 2002. Sputtered Films is a leader in the design, manufacture and service of high performance physical vapor deposition sputtering systems for the semiconductor and semiconductor packaging industry. SFI was founded in 1967 with the development

of the S-Gun, core technology of the acquired company.

Our executive offices are located at 2201 South McDowell Boulevard, Petaluma, California 94954, and our telephone number is (707) 763-5600. All service marks, brand names or trademarks appearing in this prospectus that do not belong to us are the property of their respective holders.

#### Shares Offered

On June 30, 2003, we entered into agreements with investors to raise up to \$7.2 million in a private placement of convertible debt financing to be completed in two tranches. The first tranche, completed June 30, 2003, involved the financing of \$0.9 million. The second tranche, completed September 9, 2003 after receiving stockholder approval on September 8, 2003, involved the receipt of an additional \$6.2 million.

In connection with the second tranche, we are registering for resale by the selling securityholders an aggregate of 26,409,432 shares of common stock, consisting of: (i) up to 17,815,886 shares of common stock issued upon the conversion of outstanding 2.0% Convertible Secured Debentures Due 2011 (the "Debentures") sold to the selling securityholders on June 30, 2003; (ii) up to 3,563,112 shares of common stock issuable upon the exercise of common stock purchase warrants of the Company held by the selling securityholders; (iii) advisor warrants convertible for up to 1,756,127 shares of common stock; and (iv) 3,274,307 shares representing interest payable in kind under the terms of the Debentures by issuance of additional Debentures convertible into common stock in the amount of such interest. In addition, we are also registering for resale any additional shares of common stock which may become issuable with respect to the shares of common stock issued upon conversion of the Debentures or upon exercise of the common stock purchase warrants by reason of any stock dividend, stock split, recapitalization or other similar transaction effected without the receipt of consideration which results in an increase in the number of outstanding shares of common stock.

#### RISK FACTORS

Investing in our common stock involves a significant amount of risk. You should carefully consider the following risk factors, in addition to the other information set forth in this prospectus and incorporated in this prospectus by reference to our Annual Report on Form 10-K for the fiscal year ended March 31, 2003 and our other filings with the SEC before deciding to purchase our common stock.

We have incurred operating losses and may not be profitable in the future; Our plans to maintain and increase liquidity may not be successful; Our auditors' report includes a going concern uncertainty explanatory paragraph; The accounting for the Debentures would result in significant expense amounts.

We incurred net losses of \$12.6 million and \$8.7 million for the years ended March 31, 2003 and 2002, respectively, and generated negative cash flows from operations of \$6.0 million and \$3.6 million in these respective years. We also incurred a net loss of \$1.3 million and generated negative cash flows from operations of \$0.2 million during the quarter ended June 30, 2003. In addition, we continue to generate losses and negative cash flows from operations during the months of July and August 2003. These factors raise substantial doubt as to our ability to continue as a going concern, and our auditors have included a going concern uncertainty explanatory paragraph in their latest auditors' report dated June 10, 2003 which is included in our 10-K for the year ended March 31, 2003. Our plans to maintain and increase liquidity include the restructuring executed during fiscal 2002 and 2003, which reduced headcount from 155 employees to 81 employees and has reduced our cost structure entering fiscal 2004. We believe the cost reduction and a projected increase in sales during fiscal 2004 will generate sufficient cash flows to fund our operations through March 31, 2004. However, these projected sales are to a limited number of new and existing customers and are based, for the most part, on internal and customer provided estimates of future demand, not firm customer orders. If the projected sales do not materialize, we will need to reduce expenses further and raise additional capital through the issuance of debt or equity securities. If additional funds are raised through the issuance of preferred stock or debt, these securities could have rights, privileges or preferences senior to those of our common stock, and debt covenants could impose restrictions on our operations. The sale of equity or debt could result in additional dilution to current stockholders, and such financing may not be available to us on acceptable terms, if at all. The consolidated financial statements do not include any adjustments relating to the recoverability and classification of recorded assets or the amount or

classification of liabilities or any other adjustments that might be necessary should we be unable to continue as a going concern.

Our Debentures are convertible at a conversion rate of \$0.35 per share, which was lower than the common stock's prices at June 30, 2003, the commitment date for the first tranche and September 8, 2003, the stockholder approval date for the second tranche. Additionally, we granted a 20% warrant coverage to our Debenture holders. The value of both the beneficial conversion feature and warrants resulted in a significant debt discount which will be accreted as interest expense over the eight-year life of the Debentures. This will result in substantial interest expense during fiscal 2004 and through fiscal 2011 or until the Debentures are converted.

Our Debentures include a material adverse change clause.

As disclosed in our Current Report on Form 8-K filed with the SEC on June 2, 2003, our 2% Convertible Secured Debentures Due 2011 that we sold on June 30, 2003 and September 9, 2003 include a material adverse change clause. This material adverse change clause allows the Debenture holders to demand the immediate payment of all outstanding balances upon the Debenture holders' determination of the occurrence of deemed material adverse changes to our financial condition, business or operations as determined by the Debenture holders based on required financial reporting and other criteria. Potential material adverse changes causing us to default on the Debentures may include any significant adverse effect on our financial condition arising from an event not previously disclosed in our SEC filings such as a significant litigation judgment against Tegal, bankruptcy or termination of the majority of our customer relationships. As of July 31, 2003, \$0.9 million principal amount, and as of October 9, 2003, \$6.2 million principal amount of our 2% Convertible Secured Debentures Due 2011 plus accrued interest payable in kind by issuance of additional Debentures convertible into common stock in the amount of such interest could be demanded for immediate payment by the Debenture holders upon such an event of default. In the event of such a demand, Tegal would need to pursue additional funding for repayment of such amount, or risk insolvency.

2

The conversion of our convertible securities, the exercise of outstanding warrants, options and other rights to obtain additional shares will dilute the value of the shares.

On June 30, 2003, we entered into agreements with investors to raise up to \$7.2 million in a private placement of convertible debt financing to be completed in two tranches, the first of which was completed on June 30, 2003 for \$0.9 million and the second of which was completed on September 9, 2003 for \$6.2 million following stockholder approval on September 8, 2003. As of September 10, 2003, there are Debentures convertible into 20,471,440 shares of our common stock (2,655,554 from the first tranche and 17,815,886 from the second tranche, all of which are based on a conversion price of \$0.35 per share and a cash payment in lieu of any fractional share), warrants exercisable for approximately 5,792,765 shares of our common stock (2,229,653 from the first tranche and 3,563,112 from the second tranche), advisor warrants convertible into 1,756,127 shares, 3,274,307 shares issuable as interest payment in lieu of cash and options exercisable for approximately 1,474,725 shares of our common stock.

The conversion of these convertible securities and the exercise of these warrants will result in dilution in the value of the shares of our outstanding common stock and the voting power represented thereby. In addition, the conversion price of the Debentures or the exercise price of the warrants may be lowered under the price adjustment provisions in the event of a "dilutive issuance," that is, if we issue common stock at any time prior to their maturity at a per share price below such conversion or exercise price, either directly or in connection with the issuance of securities that are convertible into, or exercisable for, shares of our common stock. A reduction in the exercise price may result in the issuance of a significant number of additional shares upon the exercise of the warrants.

Neither the Debentures nor the warrants establish a "floor" that would limit reductions in such conversion price or exercise price. The downward adjustment of the conversion price of these Debentures and of the exercise price of these warrants could result in further dilution in the value of the shares of our outstanding common stock and the voting power represented thereby.

We are registering 3,274,307 shares which can be issued as interest payments to the Debenture holders in lieu of cash. The number of shares issuable as interest payments is calculated by dividing total interest due over the life of the Debentures at 2% per annum by a price per share of \$0.35. If we elect to use such shares to pay interest, such issuance will result in dilution to our stockholders.

Sales of substantial amounts of our shares of common stock could cause the price of our common stock to go down.

To the extent the holders of our convertible securities and warrants convert or exercise such securities and then sell the shares of our common stock they receive upon conversion or exercise, our stock price may decrease due to the additional amount of shares available in the market. The subsequent sales of these shares could encourage short sales by our stockholders and others which could place further downward pressure on our stock price. Moreover, holders of these convertible securities and warrants may hedge their positions in our common stock by shorting our common stock, which could further adversely affect our stock price. The effect of these activities on our stock price could increase the number of shares issuable upon future conversions of our convertible securities or exercises of our warrants.

We received stockholder approval to increase the number of authorized shares of common stock to 100 million shares and to effect a reverse stock split. We may also issue additional capital stock, convertible securities and/or warrants to raise capital in the future. In addition, we may elect to pay any accrued interest on the outstanding \$7.2 million principal amount of Debentures with shares of our common stock. Interest on the Debentures is calculated quarter-annually, based on 2% per annum on the principal amount outstanding. In addition, to attract and retain key personnel, we may issue additional securities, including stock options. All of the above could result in additional dilution of the value of our common stock and the voting power represented thereby. No prediction can be made as to the effect, if any, that future sales of shares of our common stock, or the availability of shares for future sale, will have on the market price of our common stock prevailing from time to time. Sales of substantial amounts of shares of our common stock in the public market, or the perception that such sales could occur, may adversely affect the market price of our common stock and may make it more difficult for us to sell our equity securities in the future at a time and price which we deem appropriate. Public or private sales of substantial amounts of shares of

3

our common stock by persons or entities that have exercised options and/or warrants could adversely affect the prevailing market price of the shares of our common stock.

The semiconductor industry is cyclical and may experience periodic downturns that may negatively affect customer demand for our products and result in losses such as those experienced in the past.

Our business depends upon the capital expenditures of semiconductor manufacturers, which in turn depend on the current and anticipated market demand for integrated circuits. The semiconductor industry is highly cyclical and historically has experienced periodic downturns, which often have had a detrimental effect on the semiconductor industry's demand for semiconductor capital equipment, including etch and deposition systems manufactured by us. In response to the current prolonged industry slow-down, we have initiated a substantial cost containment program and a corporate-wide restructuring to preserve our cash. However, the need for continued investment in research and development, possible capital equipment requirements and extensive ongoing customer service and support requirements worldwide will continue to limit our ability to reduce expenses in response to the current downturn.

Our competitors have greater financial resources and greater name recognition than we do and therefore may compete more successfully in the semiconductor capital equipment industry than we can.

We believe that to be competitive, we will require significant financial resources in order to offer a broad range of systems, to maintain customer service and support centers worldwide and to invest in research and development. Many of our existing and potential competitors, including, among others, Applied Materials, Inc., Lam Research Corporation, Novellus and Tokyo Electron Limited, have substantially greater financial resources, more extensive engineering, manufacturing, marketing and customer service and support capabilities, larger installed bases of current generation etch, deposition and other production equipment and broader process equipment offerings, as well as greater name recognition than we do. We cannot assure you that we will be able to compete successfully against these companies in the United States of America or worldwide.

If we fail to meet the continued listing requirements of the Nasdaq Stock Market, our stock could be delisted.

Our stock is currently listed on The Nasdaq SmallCap Market. The Nasdaq Stock Market's Marketplace Rules impose certain minimum financial requirements on us for the continued listing of our stock. One such requirement is the

minimum bid price on our stock of \$1.00 per share. Beginning in 2002, there have been periods of time during which we have been out of compliance with the \$1.00 minimum bid requirements of the Nasdaq SmallCap Market.

On September 6, 2002, we received notification from Nasdaq that for the 30 days prior to the notice, the price of our common stock had closed below the minimum \$1.00 per share bid price requirement for continued inclusion under Marketplace Rule 4450(a)(5) (the "Rule"), and were provided 90 calendar days, or until December 5, 2002, to regain compliance. Our bid price did not close above the minimum during that period. On December 6, 2002, we received notification from Nasdaq that our securities would be delisted from The Nasdaq National Market, the exchange on which our stock was listed prior to May 6, 2003, on December 16, 2002 unless we either (i) applied to transfer our securities to The Nasdaq SmallCap Market, in which case we would be afforded additional time to come into compliance with the minimum \$1.00 bid price requirement; or (ii) appealed the Nasdaq staff's determination to the Nasdaq's Listing Qualifications Panel (the "Panel"). On December 12, 2002 we requested an oral hearing before the Panel and such hearing took place on January 16, 2003 in Washington, D.C. Our appeal was based, among other things, on our intention to seek stockholder approval for a reverse split of our outstanding common stock. On April 28, 2003 at a special meeting of our stockholders, our board of directors was granted the authority to effect a reverse split of our common stock within a range of two-for-one to fifteen-for-one. This authority was reaffirmed by our stockholders at the Annual Meeting on September 8, 2003. The timing and ratio of a reverse split, if any, is at the sole discretion of our board of directors, but it must be completed on or before December 2, 2003. On May 6, 2003, we transferred the listing of our common stock to the Nasdaq SmallCap Market. In connection with this transfer, and by additional notice, Nasdaq granted us an extension until December 31, 2003, to regain compliance with the Rule's minimum \$1.00 per share bid price requirement for continued inclusion on the Nasdaq SmallCap Market.

4

On September 16, 2003, the bid price for our stock had closed at \$1.00 or above for ten consecutive days. On September 17, 2003, we received a letter from Nasdaq confirming that Tegal had regained compliance with the minimum bid price requirement and that the question of its continued listing on the SmallCap Market was now closed.

If we are out of compliance in the future with Nasdaq listing requirements, we may take actions in order to achieve compliance, which actions may include a reverse split of our common stock. If an initial delisting decision is made by the Nasdaq's staff, we may appeal the decision as permitted by Nasdaq rules. If we are delisted and cannot obtain listing on another major market or exchange, our stock's liquidity would suffer, and we would likely experience reduced investor interest. Such factors may result in a decrease in our stock's trading price. Delisting also may restrict us from issuing additional securities or securing additional financing.

We depend on sales of our advanced products to customers that may not fully adopt our product for production use.

We have designed our advanced etch and deposition products for customer applications in emerging new films, polysilicon and metal which we believe to be the leading edge of critical applications for the production of advanced semiconductor and other microelectronic devices. Revenues from the sale of our advanced etch and deposition systems accounted for 25% and 36% of total revenues in fiscal 2003 and 2002, respectively. Our advanced systems are currently being used primarily for research and development activities or low volume production. For our advanced systems to achieve full market adoption, our customers must utilize these systems for volume production. There can be no assurance that the market for devices incorporating emerging films, polysilicon or metal will develop as quickly or to the degree we expect.

If our advanced systems do not achieve significant sales or volume production due to a lack of full customer adoption, our business, financial condition, results of operations and cash flows will be materially adversely affected.

Our potential customers may not adopt our products because of their significant cost or because our potential customers are already using a competitor's tool.

A substantial investment is required to install and integrate capital equipment into a semiconductor production line. Additionally, we believe that once a device manufacturer has selected a particular vendor's capital equipment, that manufacturer generally relies upon that vendor's equipment for that specific production line application and, to the extent possible, subsequent generations of that vendor's systems. Accordingly, it may be extremely difficult to achieve significant sales to a particular customer once that customer has selected another vendor's capital equipment unless there are compelling reasons

to do so, such as significant performance or cost advantages. Any failure to gain access and achieve sales to new customers will adversely affect the successful commercial adoption of our products and could have a detrimental effect on us.

Our quarterly operating results may continue to fluctuate.

Our revenue and operating results have fluctuated and are likely to continue to fluctuate significantly from quarter to quarter, and there can be no assurance as to future profitability.

Our 900 series etch systems typically sell for prices ranging between \$250,000 and \$600,000, while prices of our 6500 series critical etch systems and our Endeavor deposition system typically range between \$1.8 million and \$3.0 million. To the extent we are successful in selling our 6500 and Endeavor series systems, the sale of a small number of these systems will probably account for a substantial portion of revenue in future quarters, and a transaction for a single system could have a substantial impact on revenue and gross margin for a given quarter.

Other factors that could affect our quarterly operating results include:

- o our timing of new systems and technology announcements and releases and ability to transition between product versions;

5

- o seasonal fluctuations in sales;
- o changes in the mix of our revenues represented by our various products and customers;
- o adverse changes in the level of economic activity in the United States or other major economies in which we do business;
- o foreign currency exchange rate fluctuations;
- o expenses related to, and the financial impact of, possible acquisitions of other businesses; and
- o changes in the timing of product orders due to unexpected delays in the introduction of our customers' products, due to lifecycles of our customers' products ending earlier than expected or due to market acceptance of our customers' products.

Because technology changes rapidly, we may not be able to introduce our products in a timely enough fashion.

The semiconductor manufacturing industry is subject to rapid technological change and new system introductions and enhancements. We believe that our future success depends on our ability to continue to enhance our existing systems and their process capabilities, and to develop and manufacture in a timely manner new systems with improved process capabilities. We may incur substantial unanticipated costs to ensure product functionality and reliability early in our products' life cycles. There can be no assurance that we will be successful in the introduction and volume manufacture of new systems or that we will be able to develop and introduce, in a timely manner, new systems or enhancements to our existing systems and processes which satisfy customer needs or achieve market adoption.

Some of our sales cycles are lengthy, exposing us to the risks of inventory obsolescence and fluctuations in operating results.

Sales of our systems depend, in significant part, upon the decision of a prospective customer to add new manufacturing capacity or to expand existing manufacturing capacity, both of which typically involve a significant capital commitment. We often experience delays in finalizing system sales following initial system qualification while the customer evaluates and receives approvals for the purchase of our systems and completes a new or expanded facility. Due to these and other factors, our systems typically have a lengthy sales cycle (often 12 to 18 months in the case of critical etch and deposition systems) during which we may expend substantial funds and management effort. Lengthy sales cycles subject us to a number of significant risks, including inventory obsolescence and fluctuations in operating results over which we have little or no control.

We may not be able to protect our intellectual property or obtain licenses for

third parties' intellectual property and therefore we may be exposed to liability for infringement or the risk that our operations may be adversely affected.

Although we attempt to protect our intellectual property rights through patents, copyrights, trade secrets and other measures, we may not be able to protect our technology adequately and competitors may be able to develop similar technology independently. Additionally, patent applications that we may file may not be issued and foreign intellectual property laws may not protect our intellectual property rights. There is also a risk that patents licensed by or issued to us will be challenged, invalidated or circumvented and that the rights granted thereunder will not provide competitive advantages to us. Furthermore, others may independently develop similar systems, duplicate our systems or design around the patents licensed by or issued to us.

Existing litigation and any future litigation could result in substantial cost and diversion of effort by us, which by itself could have a detrimental effect on our financial condition, operating results and cash flows. Further, adverse determinations in such litigation could result in our loss of proprietary rights, subject us to significant liabilities to third parties, require us to seek licenses from third parties or prevent us from manufacturing or selling

6

our systems. In addition, licenses under third parties' intellectual property rights may not be available on reasonable terms, if at all.

Our customers are concentrated and therefore the loss of a significant customer may harm our business.

Our top five customers accounted for 88.2%, 54.4% and 42.0% of our systems revenues in fiscal 2003, 2002 and 2001, respectively. Four customers each accounted for more than 10% of net systems sales in fiscal 2003. Although the composition of the group comprising our largest customers may vary from year to year, the loss of a significant customer or any reduction in orders by any significant customer, including reductions due to market, economic or competitive conditions in the semiconductor manufacturing industry, may have a detrimental effect on our business, financial condition, results of operations and cash flows. Our ability to increase our sales in the future will depend, in part, upon our ability to obtain orders from new customers, as well as the financial condition and success of our existing customers and the general economy, which is largely beyond our ability to control.

We are exposed to additional risks associated with international sales and operations.

International sales accounted for 66%, 67% and 61% of total revenue for fiscal 2003, 2002 and 2001, respectively. International sales are subject to certain risks, including the imposition of government controls, fluctuations in the U.S. dollar (which could increase the sales price in local currencies of our systems in foreign markets), changes in export license and other regulatory requirements, tariffs and other market barriers, political and economic instability, potential hostilities, restrictions on the export or import of technology, difficulties in accounts receivable collection, difficulties in managing representatives, difficulties in staffing and managing international operations and potentially adverse tax consequences. There can be no assurance that any of these factors will not have a detrimental effect on our operations, financial results and cash flows.

Sales of our systems in certain countries are billed in local currency, and we have a line of credit denominated in Japanese Yen. We generally attempt to offset a portion of our U.S. dollar denominated balance sheet exposures subject to foreign exchange rate remeasurement by purchasing forward currency contracts for future delivery. There can be no assurance that our future results of operations and cash flows will not be adversely affected by foreign currency fluctuations. In addition, the laws of certain countries in which our products are sold may not provide our products and intellectual property rights with the same degree of protection as the laws of the United States of America.

We must integrate our acquisition of Sputtered Films and we may need to make additional future acquisitions to remain competitive. The process of identifying, acquiring and integrating future acquisitions may constrain valuable management resources, and our failure to effectively integrate future acquisitions may result in the loss of key employees and the dilution of stockholder value and have an adverse effect on our operating results.

We acquired Sputtered Films, Inc. in August 2002. We may in the future seek to acquire or invest in additional businesses, products or technologies that we believe could complement or expand our business, augment our market

coverage, enhance our technical capabilities or that may otherwise offer growth opportunities. We may encounter problems with the assimilation of Sputtered Films or businesses, products or technologies acquired in the future including:

- o difficulties in assimilation of acquired personnel, operations, technologies or products;
- o unanticipated costs associated with acquisitions;
- o diversion of management's attention from other business concerns and potential disruption of our ongoing business;
- o adverse effects on our existing business relationships with our customers;
- o potential patent or trademark infringement from acquired technologies;

7

- o adverse effects on our current employees and the inability to retain employees of acquired companies;
- o use of substantial portions of our available cash as all or a portion of the purchase price; and
- o dilution of our current stockholders due to issuances of additional securities as consideration for acquisitions.

If we are unable to successfully integrate our acquired companies or to create new or enhanced products and services, we may not achieve the anticipated benefits from our acquisitions. If we fail to achieve the anticipated benefits from the acquisitions, we may incur increased expenses and experience a shortfall in our anticipated revenues and we may not obtain a satisfactory return on our investment. In addition, if a significant number of employees of acquired companies fail to remain employed with us, we may experience difficulties in achieving the expected benefits of the acquisitions.

Completing any potential future acquisitions could cause significant diversions of management time and resources. Financing for future acquisitions may not be available on favorable terms, or at all. If we identify an appropriate acquisition candidate for any of our businesses, we may not be able to negotiate the terms of the acquisition successfully, finance the acquisition or integrate the acquired business, products, technologies or employees into our existing business and operations. Future acquisitions may not be well-received by the investment community, which may cause our stock price to fall. We have not entered into any agreements or understanding regarding any future acquisitions and cannot ensure that we will be able to identify or complete any acquisition in the future.

If we acquire businesses, new products or technologies in the future, we may be required to amortize significant amounts of identifiable intangible assets and we may record significant amounts of goodwill that will be subject to annual testing for impairment. If we consummate one or more significant future acquisitions in which the consideration consists of stock or other securities, our existing stockholders' ownership could be significantly diluted. If we were to proceed with one or more significant future acquisitions in which the consideration included cash, we could be required to use a substantial portion of our available cash.

Our workforce reductions and financial performance may adversely affect the morale and performance of our personnel and our ability to hire new personnel.

We have made reductions in our workforce in order to reduce costs and bring staffing in line with our anticipated requirements. There were costs associated with the workforce reductions related to severance and other employee-related costs, and our restructuring may yield unanticipated costs and consequences, such as attrition beyond our planned reduction in staff. In addition, our common stock has declined in value below the exercise price of many options granted to employees pursuant to our stock option plans. Thus, the intended benefits of the stock options granted to our employees, the creation of performance and retention incentives, may not be realized. In addition, workforce reductions and management changes create anxiety and uncertainty and may adversely affect employee morale. As a result, we may lose employees whom we would prefer to retain. As a result of these factors, our remaining personnel may seek employment with larger, more established companies or companies perceived as having less volatile stock prices.

Provisions in our agreements, charter documents, stockholder rights plan and Delaware law may deter takeover attempts, which could decrease the value of your

shares.

Our certificate of incorporation and bylaws and Delaware law contain provisions that could make it more difficult for a third party to acquire us without the consent of our board of directors. Our board of directors has the right to issue preferred stock without stockholder approval, which could be used to dilute the stock ownership of a potential hostile acquirer. Delaware law imposes some restrictions on mergers and other business combinations between us and any holder of 15% or more of our outstanding common stock. In addition, we have adopted a stockholder rights plan that makes it more difficult for a third party to acquire us without the approval of our board of directors. These provisions apply even if the offer may be considered beneficial by some stockholders.

8

Our stock price is volatile and could result in a material decline in the value of your investment in Tegal.

We believe that factors such as announcements of developments related to our business, fluctuations in our operating results, sales of our common stock into the marketplace, failure to meet or changes in analysts' expectations, general conditions in the semiconductor industry or the worldwide economy, announcements of technological innovations or new products or enhancements by us or our competitors, developments in patents or other intellectual property rights, developments in our relationships with our customers and suppliers, natural disasters and outbreaks of hostilities could cause the price of our common stock to fluctuate substantially. In addition, in recent years the stock market in general, and the market for shares of small capitalization stocks in particular, have experienced extreme price fluctuations, which have often been unrelated to the operating performance of affected companies. There can be no assurance that the market price of our common stock will not experience significant fluctuations in the future, including fluctuations that are unrelated to our performance.

Potential disruption of our supply of materials required to build our systems could have a negative effect on our operations and damage our customer relationships.

Materials delays have not been significant in recent years. Nevertheless, we procure certain components and sub-assemblies included in our systems from a limited group of suppliers, and occasionally from a single source supplier. For example, we depend on MECS Corporation, a robotic equipment supplier, as the sole source for the robotic arm used in all of our 6500 series systems. We currently have no existing supply contract with MECS Corporation, and we currently purchase all robotic assemblies from MECS Corporation on a purchase order basis. Disruption or termination of certain of these sources, including our robotic sub-assembly source, could have an adverse effect on our operations and damage our relationship with our customers.

Any failure by us to comply with environmental regulations imposed on us could subject us to future liabilities.

We are subject to a variety of governmental regulations related to the use, storage, handling, discharge or disposal of toxic, volatile or otherwise hazardous chemicals used in our manufacturing process. We believe that we are currently in compliance in all material respects with these regulations and that we have obtained all necessary environmental permits generally relating to the discharge of hazardous wastes to conduct our business. Nevertheless, our failure to comply with present or future regulations could result in additional or corrective operating costs, suspension of production, alteration of our manufacturing processes or cessation of our operations.

#### FORWARD-LOOKING STATEMENTS

This prospectus includes or incorporates by reference forward-looking statements within the meaning of Section 27A of the Securities Act and Section 21E of the Exchange Act. Forward-looking statements, which are based on assumptions and describe our future plans, strategies and expectations, are generally identifiable by the use of the words "anticipate," "believe," "estimate," "expect," "intend," "project," or similar expressions. These forward-looking statements are subject to risks, uncertainties and assumptions about us. Important factors that could cause actual results to differ materially from the forward-looking statements we make in this prospectus are set forth under the caption "Risk Factors" and elsewhere in this prospectus and the documents incorporated by reference in this prospectus. If one or more of these risks or uncertainties materialize, or if any underlying assumptions prove incorrect, our actual results, performance or achievements may vary materially from any future results, performance or achievements expressed or implied by these forward-looking statements. All forward-looking statements attributable to

us or persons acting on our behalf are expressly qualified in their entirety by the cautionary statements in this paragraph.

#### USE OF PROCEEDS

The selling securityholders will receive all of the proceeds from the sale under this prospectus of the common stock. We will not receive any proceeds from these sales.

9

#### SELLING SECURITYHOLDERS

The shares of common stock offered by the selling securityholders were originally issued pursuant to either the exercise of warrants to purchase our common stock, the conversion of convertible Debentures or private placement transactions exempt from the registration requirements of the Securities Act. The shares are being registered to permit public secondary trading of the shares, and the selling securityholders, including their transferees, pledges, donees or their successors, may offer the shares for resale from time to time. See "Plan of Distribution." In accordance with registration rights granted to the selling securityholders, we have filed with the Securities and Exchange Commission, under the Securities Act, a registration statement on Form S-3, of which this prospectus forms a part, with respect to the resales of the shares from time to time on the Nasdaq SmallCap Market, in privately-negotiated transactions, or otherwise, and have agreed to prepare and file such amendments and supplements to the registration statement as may be necessary to keep such registration statement effective until the shares are no longer required to be registered for the sale thereof by the selling securityholders.

The following table sets forth information as of September 10, 2003 the shares of common stock beneficially owned by each selling securityholder that may be offered pursuant to this prospectus. The information is based on information provided by or on behalf of the selling securityholders. The selling securityholders may offer all, some or none of the common stock. Because the selling securityholders may offer all or some portion of the common stock, we cannot estimate the amount of the common stock that will be held by the selling securityholders upon termination of any of these sales. In addition, the selling securityholders identified below may have sold, transferred or otherwise disposed of all or a portion of their common stock since the date on which they provided the information regarding their common stock in transactions exempt from the registration requirements of the Securities Act. The number of shares of common stock owned prior to the offering includes shares of common stock issuable upon conversion of convertible Debentures. The number of shares of common stock issuable upon conversion of the Debentures offered hereby is based on a conversion price of \$0.35 per share and a cash payment in lieu of any fractional share.

Information concerning other selling securityholders will be set forth in post-effective amendments to this prospectus from time to time, if required. Information concerning the securityholders may change from time to time and any changed information will be set forth in post-effective amendments to this prospectus if and when necessary. In addition, the conversion price, and therefore, the number of shares of common stock issuable upon conversion of the Debentures, is subject to adjustment under certain circumstances. Accordingly, the number of shares of common stock into which the Debentures are convertible may increase or decrease. Except as disclosed in the footnotes to the selling securityholder table, Tegal has no relationship with the selling securityholders prior to the issuance of the convertible Debentures.

TOTAL	3,262,196	17,815,886	5,319,239	3,274,307	26,409,432	29,671,628

</TABLE>

(1) Includes shares of common stock issuable upon conversion of the Debentures and warrants issued in the first tranche, assuming a Debenture conversion price of \$0.35 per share, warrant exercise price of \$0.50 per share and a cash payment in lieu of any fractional share interest. The conversion price is subject to adjustment.

(2) Based on Rule 13d-3(d)(i) under the Securities Exchange Act of 1934 using 16,091,762 shares of common stock outstanding on July 25, 2003, the following securityholders hold over 1% of our outstanding common stock: Hershel Berkowitz (2.59%), Orin Hirschman (10.58%), Steven Spira (3.50%), CAM Co. (8.81%); Ganot Corporation (8.81%), Anfel Trading Limited (4.61%), Dr. Jack Dodick (8.81%), Globis Capital Partners L.P. (7.79%), Paul Packer (1.19%), Richard Grossman (2.36%), Mazel D&K, Inc. (2.36), Neal I. Golman (7.79%), A. Alexander Arnold III (1.47%), Trust U/W Kenneth R. Berol FBO John A. Berol (2.36%), Trust U/W Kenneth R. Berol FBO David N. Berol (2.36%), Berol Family Trust FBO Margaret Beattie (2.36%), Laddcap Value Partners,LP (4.61%), Schottenfeld Qualified Associates, LP (10.77%), CSL Associates LP (2.36%), Performance Capital Group, LLC (2.36%), Hilary Shane (4.61%), Kinderhook Capital Partners LLC (1.19%), Karl Niehoff (1.38%), Special Situations Private Equity Fund, L.P. (26.59%), Special Situations Technology Fund, L.P. (7.17%), Special Situations Technology Fund II, L.P. (14.11%), and TSD Trading, LLC (9.84%). In calculating this amount, we treated as outstanding the number of shares of common stock issuable upon conversion of all of that particular holder's Debentures and upon exercise of all of such holder's warrants. However, we did not assume the conversion of any other holder's Debentures or the exercise of any other holder's warrants.

(3) We have entered into a financial advisory agreement with Orin Hirschman.

(4) Charles Alpert is the beneficial owner or control person for CAM Co.

(5) Sisel Klurman is the beneficial owner or control person for Ganot Corporation.

(6) Andre Zolty is the beneficial owner or control person for Anfel Trading Limited.

(7) Paul Packer is the beneficial owner or control person for Globis Capital Partners, L.P.

(8) Reuvan Dessler is the control person for Mazel D&K, Inc.

(9) A. Alexander Arnold, III is an investment manager for and Managing Director of Trainer Wortham.

(10) Voting rests with the trustees of the six trusts, all of whom are the same. A. Alexander Arnold, III is a trustee. In addition, the shares held in trust are held at Trainer Wortham.

(11) Kinderhook Capital Partners, LLC ("Kinderhook") and TSD Trading, LLC ("TSD") share the same principal. Simon Rose is the registered representative at TSD and the sole member of Kinderhook.

(12) MG Advisers, L.L.C. ("MG") is the general partner of and investment adviser to the Special Situations Private Equity Fund, L.P. SST Advisers, L.L.C. ("SSTA") is the general partner of and investment adviser to the Special Situations Technology Fund, L.P. and Special Situations Technology Fund II, L.P. Austin W. Marx and David M. Greenhouse are the principal owners of MG and SSTA and are principally responsible for the selection, acquisition and disposition of the portfolio securities by each investment advisor on behalf of its funds.

#### PLAN OF DISTRIBUTION

The selling securityholders, which term includes their transferees, pledgees or donees or their successors, may sell the common stock directly to purchasers or through underwriters, broker-dealers or agents, who may receive compensation in the form of discounts, concessions or commissions from the selling securityholders or the purchasers. These discounts, concessions or commissions as to any particular underwriter, broker-dealer or agent may be in excess of those customary in the types of transactions involved.

The common stock may be sold in one or more transactions at:

- o fixed prices;
- o prevailing market prices at the time of sale;
- o prices related to the prevailing market prices;
- o varying prices determined at the time of sale; or
- o negotiated prices.

These sales may be effected in transactions:

- o on any national securities exchange or quotation service on which our common stock may be listed or quoted at the time of sale, including the Nasdaq SmallCap Market;
- o in the over-the-counter market;
- o otherwise than on such exchanges or services or in the over-the-counter market;
- o through the writing of options, whether the options are listed on an options exchange or otherwise; or
- o through the settlement of short sales.

These transactions may include block transactions or crosses. Crosses are transactions in which the same broker acts as agent on both sides of the trade.

In connection with the sale of the common stock or otherwise, the selling securityholders may enter into hedging transactions with broker-dealers or other financial institutions. These broker-dealers or financial institutions may in turn engage in short sales of the common stock in the course of hedging the positions they assume with selling securityholders. The selling securityholders may also sell the common stock short and deliver these securities to close out such short positions, or loan or pledge the common stock to broker-dealers that in turn may sell these securities.

The aggregate proceeds to the selling securityholders from the sale of the common stock offered by them hereby will be the purchase price of the common stock less discounts and commissions, if any. Each of the selling securityholders reserves the right to accept and, together with their agents from time to time, to reject, in whole or in part, any proposed purchase of common stock to be made directly or through agents. We will not receive any of the proceeds from this offering.

Our outstanding common stock is listed for trading on the Nasdaq SmallCap Market.

In order to comply with the securities laws of some states, if applicable, the common stock may be sold in these jurisdictions only through registered or licensed brokers or dealers. In addition, in certain jurisdictions, the

common stock may not be offered or sold unless they have been registered or qualified for sale or an exemption is available and complied with.

Broker-dealers or agents that participate in the sale of the common stock may be deemed to be "underwriters" within the meaning of Section 2(11) of the Securities Act. Selling securityholders that participate in the sale of the common stock may also be deemed to be "underwriters" within the meaning of Section 2(11) of the Securities Act. Profits on the sale of the common stock by selling securityholders and any discounts, commissions or concessions received by any broker-dealers or agents might be deemed to be underwriting discounts and commissions under the Securities Act. Selling securityholders who are deemed to be "underwriters" within the meaning of Section 2(11) of the Securities Act will be subject to the prospectus delivery requirements of the Securities Act. To the extent the selling securityholders may be deemed to be "underwriters," they may be subject to statutory liabilities, including, but not limited to, Sections 11, 12 and 17 of the Securities Act.

The selling securityholders and any other person participating in a distribution will be subject to applicable provisions of the Exchange Act and the rules and regulations thereunder. Regulation M of the Exchange Act may limit the timing of purchases and sales of any of the securities by the selling

securityholders and any other person. In addition, Regulation M may restrict the ability of any person engaged in the distribution of the securities to engage in market-making activities with respect to the particular securities being distributed for a period of up to five business days before the distribution. The selling securityholders have acknowledged that they understand their obligations to comply with the provisions of the Exchange Act and the rules thereunder relating to stock manipulation, particularly Regulation M, and have agreed that they will not engage in any transaction in violation of such provisions.

To our knowledge, there are currently no plans, arrangements or understandings between any selling securityholder and any underwriter, broker-dealer or agent regarding the sale of the common stock by the selling securityholders.

A selling securityholder may decide not to sell any common stock described in this prospectus. We cannot assure holders that any selling securityholder will use this prospectus to sell any or all of the common stock. Any securities covered by this prospectus which qualify for sale pursuant to Rule 144 or Rule 144A of the Securities Act may be sold under Rule 144 or Rule 144A rather than pursuant to this prospectus. In addition, a selling securityholder may transfer, devise or gift the common stock by other means not described in this prospectus.

With respect to a particular offering of the common stock, to the extent required, an accompanying prospectus supplement or, if appropriate, a post-effective amendment to the registration statement of which this prospectus is a part will be prepared and will set forth the following information:

- o the specific common stock to be offered and sold;
- o the names of the selling securityholders;
- o the respective purchase prices and public offering prices and other material terms of the offering;
- o the names of any participating agents, broker-dealers or underwriters; and
- o any applicable commissions, discounts, concessions and other items constituting compensation from the selling securityholders.

We entered into several registration rights agreement for the benefit of holders of our common stock, Debentures convertible into our common stock and warrants to purchase our common stock to register their common stock under applicable federal and state securities laws under certain circumstances and at certain times. The registration rights agreements provide that the selling securityholders and Tegal will indemnify each other and their respective directors, officers and controlling persons against specific liabilities in connection with the offer and sale of the common stock, including liabilities under the Securities Act, or will be entitled to contribution in

14

connection with those liabilities. We will pay all of our expenses and specified expenses incurred by the selling securityholders incidental to the registration, offering and sale of the common stock to the public, but each selling securityholder will be responsible for payment of commissions, concessions, fees and discounts of underwriters, broker-dealers and agents.

#### LEGAL MATTERS

Certain legal matters relating to the offering will be passed upon for Tegal by Latham & Watkins LLP, Menlo Park, California. Certain legal matters will be passed upon for any agents or underwriters by counsel for such agents or underwriters identified in the applicable prospectus supplement.

#### EXPERTS

The financial statements incorporated in this prospectus by reference to the Annual Report on Form 10-K for the year ended March 31, 2003 have been so incorporated in reliance on the report (which contains an explanatory paragraph relating to the ability of Tegal Corporation to continue as a going concern, as described in Note 1 to the financial statements) of PricewaterhouseCoopers LLP, independent accountants, given on the authority of said firm as experts in auditing and accounting.

#### WHERE YOU CAN FIND MORE INFORMATION

We are subject to the information requirements of the Securities Exchange Act of 1934, as amended. Accordingly, we file annual, quarterly and periodic reports, proxy statements and other information with the SEC relating to our business, financial statements and other matters. You may read and copy any documents we have filed with the SEC at prescribed rates at the SEC's Public Reference Room at 450 Fifth Street, N.W., Washington, DC 20549. You can obtain information on the operation of the Public Reference Room by calling the SEC at 1-800-SEC-0330. Our SEC filings are also available to you free of charge at the SEC's web site at <http://www.sec.gov> and at our web site at <http://www.tegal.com>. Information contained in our web site is not part of this prospectus.

This prospectus is only part of a registration statement on Form S-3 that we have filed with the SEC under the Securities Act, and therefore omits certain information contained in the registration statement. We have also filed exhibits with the registration statement that are not included in this prospectus, and you should refer to the applicable exhibit for a complete description of any statement referring to any contract or other document. A copy of the registration statement, including the exhibits thereto, may be inspected without charge at the Public Reference Room of the SEC described above, and copies of such material may be obtained from such office upon payment of the fees prescribed by the SEC.

We have elected to "incorporate by reference" certain information into this prospectus. By incorporating by reference, we can disclose important information to you by referring you to another document we have filed with the SEC. The information incorporated by reference is deemed to be part of this prospectus, except for information incorporated by reference that is superseded by information contained in this prospectus. This prospectus incorporates by reference the documents set forth below that we have previously filed with the SEC:

Tegal Corporation SEC Filings	Period Ended
-----	-----
Annual Report on Form 10-K (including information specifically incorporated by reference into our Form 10-K from our 2003 Annual Report to Stockholders and Proxy Statement for our 2003 Annual Meeting of Stockholders).....	March 31, 2003
Quarterly Report on Form 10-Q.....	June 30, 2003
Current Report on Form 8-K.....	filed on July 2, 2003
The description of our common stock as set forth in our Registration Statement on Form 8-A.....	filed on September 21, 1995

All documents that we file with the SEC pursuant to Section 13(a), 13(c), 14 or 15(d) of the Exchange Act from the date of this prospectus to the end of the offering of the common stock under this prospectus shall also be deemed to be incorporated in this prospectus by reference.

You may obtain copies of these documents from us without charge (other than exhibits to such documents, unless such exhibits are specifically incorporated by reference into such documents) by writing to us at Tegal Corporation, 2201 South McDowell Boulevard, Petaluma, California 94954 or calling us at (707) 763-5600.

26,409,432 SHARES OF COMMON STOCK

TEGAL CORPORATION

We have not authorized any dealer, salesman or other person to give any information or to make any representation other than those contained or incorporated by reference in this prospectus and any applicable supplement to this prospectus. You must not rely upon any information or representation not contained or incorporated by reference in this prospectus or any applicable supplement to this prospectus. Neither this prospectus nor any applicable supplement to this prospectus constitutes an offer to sell or the solicitation of an offer to buy any securities other than the registered common stock to which it relates, nor does this prospectus or any supplement to this prospectus constitute an offer to sell or the solicitation of an offer to buy securities in any jurisdiction to any person to whom it is unlawful to make such offer or solicitation in such jurisdiction. You should not assume that the information contained in this prospectus or any supplement to this prospectus is accurate on any date subsequent to the date set forth on the front of this prospectus or any supplement to this prospectus or that any information we have incorporated by reference is correct on any date subsequent to the date of the document incorporated by reference, even though this prospectus and any applicable supplement to this prospectus is delivered or securities issued on a later date.

PART II

INFORMATION NOT REQUIRED IN PROSPECTUS

ITEM 14. OTHER EXPENSES OF ISSUANCE AND DISTRIBUTION.

*Accounting Fees and Expenses.....	30,000.00
*Miscellaneous Expenses.....	10,000.00
	-----
*Total.....	\$ 102,606.56

\*Estimated

ITEM 15. LIABILITY AND INDEMNIFICATION OF DIRECTORS AND OFFICERS.

We are a Delaware corporation. Subsection (b)(7) of Section 102 of the Delaware General Corporation Law (the "DGCL"), enables a corporation in its original certificate of incorporation or an amendment thereto to eliminate or limit the personal liability of a director to the corporation or its stockholders for monetary damages for breach of the director's fiduciary duty, except (i) for any breach of the director's duty of loyalty to the corporation or its stockholders, (ii) for acts or omissions not in good faith or which involve intentional misconduct or a knowing violation of law, (iii) pursuant to Section 174 of the DGCL (providing for liability of directors for unlawful payment of dividends or unlawful stock purchases or redemptions) or (iv) for any transaction from which the director derived an improper personal benefit.

Subsection (a) of Section 145 of the DGCL empowers a corporation to indemnify any present or former director, officer, employee or agent of the corporation, or any individual serving at the corporation's request as a director, officer, employee or agent of another organization, who was or is a party or is threatened to be made a party to any threatened, pending or completed action, suit or proceeding, whether civil, criminal, administrative or investigative (other than an action by or in the right of the corporation), against expenses (including attorneys' fees), judgments, fines and amounts paid in settlement actually and reasonably incurred by the person in connection with such action, suit or proceeding provided that such director, officer, employee or agent acted in good faith and in a manner he reasonably believed to be in, or not opposed to, the best interests of the corporation, and, with respect to any criminal action or proceeding, provided further that such director, officer, employee or agent had no reasonable cause to believe his conduct was unlawful.

Subsection (b) of Section 145 empowers a corporation to indemnify any present or former director, officer, employee or agent who was or is a party or is threatened to be made a party to any threatened, pending or completed action or suit by or in the right of the corporation to procure a judgment in its favor by reason of the fact that such person acted in any of the capacities set forth above, against expenses (including attorneys' fees) actually and reasonably incurred by the person in connection with the defense or settlement of such action or suit provided that such director, officer, employee or agent acted in good faith and in a manner reasonably believed to be in, or not opposed to, the best interests of the corporation, except that no indemnification may be made in respect to any claim, issue or matter as to which such director, officer, employee or agent shall have been adjudged to be liable to the corporation unless and only to the extent that the Court of Chancery or the court in which such action or suit was brought shall determine upon application that, despite the adjudication of liability but in view of all of the circumstances of the case, such director or officer is fairly and reasonably entitled to indemnity for such expenses which the Court of Chancery or such other court shall deem proper.

## II-1

Section 145 further provides that to the extent a director, officer, employee or agent has been successful in the defense of any action, suit or proceeding referred to in subsections (a) and (b) or in the defense of any claim, issue or matter therein, he shall be indemnified against expenses (including attorneys' fees) actually and reasonably incurred by him in connection therewith; that indemnification and advancement of expenses provided for, by, or granted pursuant to, Section 145 shall not be deemed exclusive of any other rights to which the indemnified party may be entitled; and empowers the corporation to purchase and maintain insurance on behalf of a present or former director, officer, employee or agent of the corporation, or any individual serving at the corporation's request as a director, officer or employee of another organization, against any liability asserted against him or incurred by him in any such capacity, or arising out of his status as such, whether or not the corporation would have the power to indemnify him against such liabilities under Section 145.

Our Certificate of Incorporation provides that to the fullest extent permitted by the Delaware General Corporation Law ("DGCL"), a director of Tegal shall not be liable to Tegal or its stockholders for monetary damages for breach of fiduciary duty as a director.

We have in effect directors' and officers' liability policies in the aggregate amount of \$10 million covering all of its directors and officers.

II-2

ITEM 17. UNDERTAKINGS.

A. The undersigned registrant hereby undertakes:

(1) To file, during any period in which offers or sales are being made, a post-effective amendment to this registration statement:

(i) To include any prospectus required by Section 10(a)(3) of the Securities Act of 1933;

(ii) To reflect in the prospectus any facts or events arising after the effective date of the registration statement (or the most recent post-effective amendment thereof) which, individually or in the aggregate, represent a fundamental change in the information set forth in the registration statement. Notwithstanding the foregoing, any increase or decrease in volume of securities offered (if the total dollar value of securities offered would not exceed that which was registered) and any deviation from the low or high of the estimated maximum offering range may be reflected in the form of prospectus filed with the Commission pursuant to Rule 424(b) if, in the aggregate, the changes in volume and price represent no more than 20 percent change in the maximum aggregate offering price set forth in the "Calculation of Registration Fee" table in the effective registration statement;

(iii) To include any material information with respect to the plan of distribution not previously disclosed in the registration statement or any material change to such information in the registration statement;

provided, however, that paragraphs (A)(1)(i) and (A)(1)(ii) do not apply if the information required to be included in a post-effective amendment by those paragraphs is contained in periodic reports filed with or furnished to the Commission by the registrant pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934 that are incorporated by reference in the registration statement.

(2) That, for the purpose of determining any liability under the Securities Act of 1933, each such post-effective amendment shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof; and

(3) To remove from registration by means of a post-effective amendment any of the securities being registered which remain unsold at the termination of the offering.

B. The undersigned registrant hereby undertakes that, for purposes of determining any liability under the Securities Act of 1933, each filing of the registrant's annual report pursuant to Section 13(a) or 15(d) of the Securities Exchange Act of 1934 (and, where applicable, each filing of an employee benefit plan's annual report pursuant to Section 15(d) of the Securities Exchange Act of 1934) that is incorporated by reference in the registration statement shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.

C. Insofar as indemnification for liabilities arising under the Securities Act of 1933 may be permitted to directors, officers and controlling persons of the registrant pursuant to the foregoing provisions, or otherwise, the registrant has been advised that in the opinion of the Securities and Exchange Commission such indemnification is against public policy as expressed in the Act and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than the payment by the registrant of expenses incurred or paid by a director, officer or controlling person of the registrant in the successful defense of any action, suit or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered, the registrant will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such

indemnification by it is against public policy as expressed in the Act and will be governed by the final adjudication of such issue.

II-3

SIGNATURES

Pursuant to the requirements of the Securities Act of 1933, the Registrant certifies that it has reasonable grounds to believe that it meets all of the requirements for filing on Form S-3 and has duly caused this registration statement to be signed on its behalf by the undersigned, thereunto duly authorized, in the city of Petaluma, state of California, on this 18th day of September, 2003.

EXHIBIT 4.2

CERTIFICATE OF AMENDMENT  
OF  
CERTIFICATE OF INCORPORATION  
OF TEGAL CORPORATION

It is hereby certified that:

1. The name of the Corporation (hereinafter called the "Corporation") is Tegal Corporation.
2. The Certificate of Incorporation is hereby amended by striking out the first sentence of Article FOURTH thereof and by substituting in lieu of said sentence the following new sentence:

"FOURTH: The total number of shares of all classes of capital stock which the Corporation shall have authority to issue is One Hundred Five Million shares, comprised of One Hundred Million (100,000,000) shares of Common Stock, with a par value of One Cent (U.S. \$0.01) per share, and Five Million (5,000,000) shares of Preferred Stock, with a par value of One Cent (U.S. \$0.01) per share.

3. The amendment of the Certificate of Incorporation herein certified was submitted to the stockholders of the Corporation and was duly approved by the required vote of stockholders of the Corporation in accordance with the provisions of Sections 222 and 242 of the General Corporation Law of the State of Delaware. The total number of outstanding shares entitled to vote or consent to this Amendment was 16,099,949 shares of Common Stock. A majority of the outstanding shares of Common Stock, voting together as a single class, voted in favor of this Certificate of Amendment. The vote required was a majority of the outstanding shares of Common Stock, voting together as a single class.

IN WITNESS WHEREOF, Tegal Corporation has caused this Certificate of Amendment to be signed by its Chief Executive Officer as of September 9, 2003.

[LETTERHEAD OF LATHAM & WATKINS LLP]

September 18, 2003

Tegal Corporation  
2201 South McDowell Blvd.  
Petaluma, California 94954

Re: Registration Statement on Form S-3  
26,409,432 shares of Common Stock, par value \$0.01 per share

Ladies & Gentlemen:

In connection with the registration by Tegal Corporation, a Delaware corporation (the "Company"), of the resale of 26,409,432 shares (the "Shares") of the Company's common stock, par value \$0.01 per share, including 3,563,112 shares (the "Warrant Shares") issuable pursuant to the exercise of warrants to purchase common stock issued by the Company (the "Warrants") and 17,815,886 shares (the "Converted Shares") issuable pursuant to the conversion of \$6,235,556.20 principal amount of the Company's 2.0% Convertible Secured Debentures issued by the Company on September 9, 2003 (the "Convertible Debentures"), pursuant to a registration statement on Form S-3 under the Securities Act of 1933, as amended, filed with the Securities and Exchange Commission on September 18, 2003 (the "Registration Statement"), you have requested our opinion set forth below.

In our capacity as your special counsel in connection with such registration, we are familiar with the proceedings taken by the Company in connection with the authorization of the Shares. In addition, we have examined such matters of fact and questions of law as we have considered appropriate for purposes of this letter.

We are opining herein as to the effect on the subject transaction only of the Delaware General Corporation Law, and we express no opinion with respect to the applicability thereto, or the effect thereon, of any other laws.

Subject to the foregoing, it is our opinion that as of the date hereof, (a) the Warrant Shares have been duly authorized by all necessary corporate action of the Company and, upon issuance, delivery and payment therefore in accordance with and in the manner contemplated by the terms of the Warrants, will be validly issued, fully paid and non-assessable, and (b) the Converted Shares have been duly authorized by all necessary corporate action of the Company, and upon issuance, delivery and payment therefore in accordance with and in the manner contemplated by the terms of the Convertible Debentures, will be validly issued, fully paid and non-assessable.

September 18, 2003

We consent to your filing this opinion as an exhibit to the Registration Statement and to the reference to our firm contained under the heading "Legal Matters" in the prospectus included in the Registration Statement.

Very truly yours,

/s/ Latham & Watkins LLP

EXHIBIT 23.2

CONSENT OF INDEPENDENT ACCOUNTANTS

We hereby consent to the incorporation by reference in this Registration Statement on Form S-3 of our report dated June 10, 2003, relating to the consolidated financial statements and the financial statement schedule, which appears in Tegal Corporation's Annual Report on Form 10-K for the year ended March 31, 2003. We also consent to the reference to us under the heading "Experts" in such Registration Statement.
